EasyWell Supplementary Benefit Series

You may now have critical illness cover as a safety net for you and your family in case you become ill. But do you have enough cover to pay for the cost of diseases that might unfortunately recur or be diagnosed at a late stage? That ‘protection gap’ can mean you need more time off to recover and need to dip into your savings to pay the bills.

Our **EasyWell Supplementary Benefit Series** consists of **2** supplementary benefits – the **EasyWell Severe Cancer Care** and the **EasyWell Critical Illness MultiCare**. Take out the plans in this series for yourself, and with just a little bit more money, you will strengthen your protection and bridge the ‘protection gap’. The **EasyWell Severe Cancer Care** covers you against stage 3 or 4 cancer by paying out a lump-sum protection. The **EasyWell Critical Illness MultiCare** gives you multi-coverage against the most common diseases: cancer, heart attack and stroke – whereby we will pay the **Extended Major Disease Benefit** after we have paid the Major Disease Benefit under the attached basic critical illness plan. With these 2 plans, you can take all the time you need to recover without having to worry about how to cover your everyday costs.

Key risks

How may our credit risk affect your policy in this series?

The guaranteed cash value (if applicable) and insurance benefit of your plan are subject to our credit risk. If we become insolvent, you may lose the value of your policy and its coverage.

How may currency exchange rate risk affect your benefits?

Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your benefits to other currencies. Additionally, the conversion of your benefits to other currencies is subject to exchange restrictions applicable at the time when the benefits are paid. You have the sole responsibility to decide if you want to convert your benefits to other currencies.

How may inflation affect the value of your plan in this series?

We expect the cost of living to rise in the future because of inflation. That means the insurance you take out today will not have the same buying power in the future, even if the plan offers increasing benefits intended to offset inflation.

What happens if you do not pay your premiums?

You should only apply for this product if you intend to pay all its premiums. If you miss any of your premium payments, we may terminate your policy and you would lose the policy's coverage.

Why may we adjust your premiums?

We have the right to review the premium rates from time to time and adjust the plan's premium rates for particular risk classes at the end of each renewable period, but not for any individual customer.

We may adjust premium rates because of several factors, such as our claims and persistency experience.

Important information

Cancellation right

A customer who has bought the life insurance plans has a right to cancel the policy within the cooling-off period and obtain a refund of any premium(s) and any levy(ies) paid less any withdrawals. Provided that no claim has been made, the customer may cancel the policy by giving written notice to us (applicable to policy(ies) issued in Hong Kong) or by completing the form designated by us (applicable to policy(ies) issued in Macau) within 21 calendar days immediately following either the day of delivery of (1) the policy or (2) the notice (informing the availability of the policy and expiry date of the cooling-off period) to the customer or his/her nominated representative, whichever is earlier. Such notice/form must be signed by the customer and received directly by Prudential Hong Kong Limited at 8/F, Prudential Tower, The Gateway, Harbour City, 21 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong (applicable to policy(ies) issued in Hong Kong) or Prudential Hong Kong Limited (Macau Branch) at 12 Andar A, FIT Center of Macau, Avenida Doutor Mario Soares, Macau (applicable to policy(ies) issued in Macau) within the cooling-off period.

If the policy is issued in Hong Kong:

The premium and levy will be refunded in the currency of premium and levy payment at the time of application for this policy. If the currency of premium and levy payment is not the same as the plan currency, the refundable premium and levy amount in plan currency under this policy will be converted to the currency of premium and levy payment at the prevailing currency exchange rate as determined by us in our absolute discretion from time to time upon payment. After the cooling-off period expires, if a customer cancels the policy before the end of benefit term, the actual cash value (if applicable) may be substantially less than the total amount of premiums paid.

If the policy is issued in Macau:

The premium and any levy (if applicable) will be refunded in the policy currency, or the original currency paid by you, or a currency at an exchange rate agreed by you. After the cooling-off period expires, if a customer cancels the policy before the end of benefit term, the actual cash value (if applicable) may be substantially less than the total amount of premiums paid.

Levy on insurance premiums

The term "levy" refers to a levy on insurance premiums for this policy issued in Hong Kong or in Macau, if and when applicable.
